# MOG RENT massively expands its ROBE Lighting stock and asserts its leadership of the Dry Hire market in France

## Products Involved

**iSpiiderX®** **iESPRITE®** **PAINTE®** **T1 Profile™** **T2 Profile™** **T11 Profile™**

A key player in Dry Hire in France, MOG.rent has taken a further step in the development of its product range by adding almost 200 ROBE projectors to its stock, bringing it to over 400 units.

This step-up confirms the high technical standards and ambitious vision of this French company dedicated to technical service providers in the entertainment and events sectors.

This new acquisition includes the brand's most coveted references :

**iESPRITE®**, the IP65 LED Spot reference, **iSpiiderX®**, the powerful and creative IP65 version wash, **PAINTE®**, the compact spotlight that combines precision and versatility, **T1™**, **T2™**, **T11™**, the spearheads of the ROBE theatrical series, RoboSpot™, the remote tracking system acclaimed by tours and TV sets.

Bruno Garros, Managing Director of Robe Lighting France, states:

“MOG is a sharp team, a clear vision, a well-constituted stock. We have full confidence in them to provide a premium service to the many service providers who now have a local, Made in France rental solution.”

Today, MOG.rent offers its customers one of the most modern and coherent equipment inventories on the market, while guaranteeing rapid availability and impeccable service quality.
